A Parable of the Sower is a novel about life and love in which two immortals clash across continents and centuries, binding their fates together - and changing the destiny of the human race. Doro knows no higher authority than himself. An ancient spirit with boundless powers, he possesses humans, killing without remorse as he jumps from body to body to maintain his own life. With a lonely, sturdy antenna at his side, Doro breeds superhumanly gifted humans into empires that obey his every desire. His face is utopian, and he is the last of his kind. He is also the last of his kind. He is also the last of his kind.

The complete series about an alien species that could save humanity after nuclear apocalypse—or destroy it—is from "one of science fiction's finest writers" (The New York Times). The newest entry in human evolution begins in outer space. Survivors of a cataclysmic event face an extraterrestrial species that sees them as potential playthings. Their seizure of the Gardner family's worldwide holdings - their sprawling empires, their powerful wheeler-dealers, their imperial yachts, their gunships - is仅仅需要再阅读几页就能发现其中的秘密。这本书是一部充满投机分子的励志小说，但许多读者认为它没有结局。

Unexpected Stories
Octavia Butler (1947–2006) opens the majority of her prolific career as the only major black female author of science fiction. Winner of both the Nebula and Hugo Awards as well as a MacArthur “genius” grant, for the first time a science fiction writer, Butler created worlds that challenged notions of race, sex, gender, and humanity. Whether in the postapocalyptic future of the Parable series, or in the human inability to change and difference in the Xenogynous books, or in the domestic sphere of sovereignty in the Patridge series, Butler held up a mirror, reflecting what is beautiful, corrupt, worthless, and daunting about the world we inhabit. In interviews ranging from 1982 until just before her sudden death in 2006, Conversations with Octavia Butler reveals a writer very much aware of herself as the “rare bird” of science fiction even as she shows frustration with the common question, “How does it feel to be the only one?” Whether discussing humanity’s biological imperatives or the difference between science fiction and fantasy or the plight of the working poor in America, Butler offers these interviews as funny, intelligent, complicated, and intensely original.
