Vagabonding with Kids

Don't forget the bear spray. This is foremost in AK Turner's mind as she travels with her husband and two daughters north through Canada, along the Alaska Marine Highway, and ultimately to a tiny, roadless island, accessible only by boat from the nearby town of Sitka. The foursome adapts to island life, where their neighbors are few humans and thousands of giant slugs. With adventures in hot-springs hunting, fishing (kill the fish before filleting), and hiking on rain-forested volcanic islands, Vagabonding with Kids: Alaska provides raucous insight into life on the Alexander Archipelago.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will learn how to become a true adventurer by making your travels an art of living. You will also learn how to: travel more often and longer; make travel your priority; simplify your life; travel better; get to know yourself better. Wander around. This term derived from Latin is rather connoted; in the collective unconscious, it evokes the homeless, poverty and the absence of rules. Yet it has a positive meaning that has been alienated from it. It suggests the fact of travelling in the absence of a precise destination, according to one's inspirations, with calm, freedom and strength. For travel does not only shape youth: it is one of the factors of self-discovery at any age. "Vagabonder" is thus also a vector of knowledge. It is a way of looking at travel in a more authentic way, far from the marked paths of mass tourism. *Buy now the summary of this book for the modest price of a cup of coffee!

Motorcycle Vagabonding in Japan

In 1953, twenty-four-year old Nicolas Bouvier and his artist friend Thierry Vernet set out to make their way overland from their native Geneva to the Khyber Pass. They had a rattletrap Fiat and a little money, but above all they were equipped with the certainty that by hook or by crook they would reach their destination, and that there would be unanticipated adventures, curious companionship, and sudden illumination along the way. The Way of the World, which Bouvier fashioned over the course of many years from his journals, is an entrancing story of adventure, an extraordinary work of art, and a voyage of self-discovery on the order of Robert M. Pirsig's Zen and the Art of Motorcycle Maintenance. As Bouvier writes, “You think you are making a trip, but soon it is making—or unmaking—you.”

This book serves as a whirlwind tour of her story and the people in it, from gutter-punks to gurus in French bakeries or Californian coastal communes. A love story, a horror story, a near-mythological nuptial with the land, this book insists upon the goodness of the world’s poor and reckless wanderers with starry eyes and helping hands. Equal parts memoir, anthropological study, and philosophical essay, this genre-bending how-to guide is an ecological, economical, and international plea to stop worrying, quit your job, and start searching.

Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. For as long as people have traveled to distant lands, they have brought home objects to certify the journey. More than mere merchandise, these travel souvenirs take on a personal and cultural meaning that goes beyond the object itself. Drawing on several millennia of examples—from the relic-driven quests of early Christians, to the mass-produced tchotchkes that line the shelves of a Disney gift shop—travel writer Rolf Potts delves into a complicated history that explores issues of authenticity, cultural obligation, market forces, human suffering, and self-presentation. Souvenirs are shown for what they really are: not just objects, but personalized forms of folk storytelling that enable people to make sense of the world and their place in it.

Object Lessons is published in partnership with an essay series in The Atlantic. Souvenir features illustrations by Cedar Van Tassel
